Dave,

Ex. 5 - Deliberative

As for using the current federal response letter to also address her latest missive, I'd be supportive of merely acknowledging receipt of the letter and a statement that we will comprehensively update our final decision document based on a consideration of all the facts at the time of our final decision.

Attached is a letter from NWEA that raises concerns about EPA/NOAA approval of the OR's CNPCP management measures for agriculture.

EPA and NOAA have not been able to approve the following three areas of OR's CNPCP: Management measures for new developments &, OSDS and additional management measures for forestry. A few dozen other areas of the OR CNPCP have been "approved" (highways & bridges, monitoring, agriculture, marinas, etc.) and NOAA and EPA have been waiting for the State to address the three outstanding areas of the CNPCP before making a final determination on OR's CNPCP.

Ex. 5 - Deliberative

NOAA and EPA are working on a response to NWEA prior letter....should be consider using that response for the attached NWEA letter too?
